About Council of Europe Development Bank

The Council of Europe Development Bank (CEB) is a multilateral development bank with an exclusively social mandate. The Bank receives no aid, subsidy or budgetary contribution from its member states to finance its activities. The necessary resources are therefore raised on the international capital markets in the form of borrowings.

As a major instrument of the policy of solidarity in Europe, the Bank finances social projects by making available resources raised in conditions reflecting the quality of its rating (Aa1 with Moody’s, outlook stable, AAA with Standard & Poor’s, outlook stable and AA+ with Fitch Ratings, outlook positive).

To ensure that it maintains access to the funds needed to pursue its activities, the Bank continues to have recourse both to large-scale borrowings in major currencies, aimed at a broad range of institutional investors, and to issues in given currencies or with specific structures corresponding to more particular requirements.
