

PROCEDURE N° 2022-11 CEB/TAM/LD
Partnerships and Financing for Migrant Inclusion (PAFMI)

n°	Question	Answer
1	<p>Could you please confirm that the funds received under the PAFMI project will not have to be reimbursed? The fact that the Guidelines refer to both a grant and a loan creates ambiguity for us.</p>	<p><i>The Call for Proposals has the purpose to award grants under PAFMI. Funding provided by the CEB under PAFMI is 100% grant, and CEB does not give loans to entities through PAFMI. Please see below two illustrative examples:</i></p> <p><i>Example 1:</i> <i>For Lot 1, Entity X submits a proposal for a project with a budget of EUR 500,000. This project proposal is selected by the CEB. Entity X will then receive EUR 500,000 in the form of a grant (non-repayable funding) to implement its project.</i></p> <p><i>However, please note that: in order to apply to the Call for Proposals for Lot 1 and to be selected to receive a grant under PAFMI, in this example, Entity X or its partner Entity Y should be a prospective, existing or past CEB borrower. The definition of past and prospective CEB borrowers is available on page 8 of the Guidelines for Applicants.</i></p> <p><i>Example 2:</i> <i>For Lot 2, Entity A submits a proposal for conducting a feasibility study (i.e. project preparatory work) with a budget of EUR 150,000. This proposal is selected by the CEB. Entity A will then receive EUR 150,000 in the form of a grant (non-repayable funding) to conduct the feasibility study (i.e. project preparatory work).</i></p> <p><i>However, please note that: in order to apply to the Call for Proposals for Lot 2 and to be selected to receive a grant under PAFMI, in this example, Entity A or its partner Entity B should substantiate, in the form of a letter, its interest to finance with a future CEB loan the project for which the feasibility study will be done. This is outlined on page 9 of the Guidelines for Applicants.</i></p>
